Re: Buy American Compliance

Alcan Cable products manufactured in the USA meet the guidelines established under the Buy American Act and the North American Free Trade Agreement.

Electrical power cables manufactured by Alcan Cable may include such name brands as STABILOY®, NUAL®, FeederPlex® and WIDESTRIPE™. All of these products are manufactured in the United States and are North American Free Trade Agreement (NAFTA) certified and comply with the Buy American Act that has been in effect since 1933.

Alcan Cable, over its 100 year history, recognizes the value of community and being a good neighbor. It is for this reason we promote and are actively involved in supporting the American dream through education, diversity, environmental health and safety, youth empowerment and community awareness.

Thank you for your support.

Regards,

Howard H. Atkins  
Vice President – Business Development
